WORK EXPERIENCE

Intern at Developer's Hub

March 2025 - July 2025

Role - Frontend Developer

- Transformed Figma UI designs into a fully responsive e-commerce website, ensuring consistent user experience across desktop and mobile platforms.
- Developed a modern web platform using React and Tailwind CSS to connect global investors and entrepreneurs.
- Focused on performance optimization, accessibility best practices, and clean, maintainable code to deliver a polished user interface.

PROJECTS EXPERIENCE

Google Gemini Clone

- Developed a fully responsive AI assistant web app inspired by Google Gemini using ReactJS.
- Integrated a "New Chat" feature to allow users to start fresh conversations anytime.
- Utilized Generative AI API to fetch dynamic responses based on user prompts.

E-Commerce Website

- Designed and developed a responsive e-commerce website using HTML, CSS, and JavaScript from scratch.
- Implemented interactive product listings, navigation, and cart functionality to simulate a real-world shopping experience.
- Focused on clean UI design, mobile responsiveness, and intuitive user interactions without relying on external libraries or frameworks.

ADDITIONAL EXPERIENCE

- Serve as a volunteer at the Higher Education event from entrepreneurial ideas and skills.
- Served as a project team leader and developed a fully functional CRUD operations website by integrating ASP.NET Entity Framework using SQL database.
- Attended seminar on Big Data, Python workshop.
- Intro to Python certification from Google.
